

AS OF SPRING 2015

NEW MOTORCYCLE DRIVING COURSE

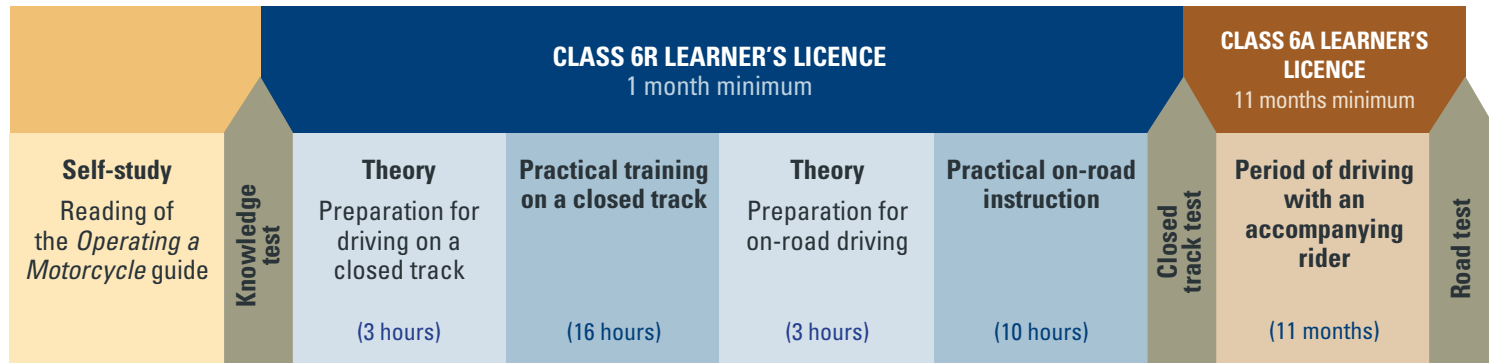

Driving schools will begin offering the new course, entitled *Road Safety Education Program – Operating a Motorcycle*, as of the 2015 season. The new course places greater emphasis on behaviour and on the techniques and manoeuvres that motorcycle drivers must master. It is based on an approach to driving that focuses on safety, cooperation and responsibility.

WHAT'S NEW

The main differences between the new course and the old one are the following:

- Preparation for the knowledge test is done through self-study, using the new edition of the *Operating a Motorcycle* guide.
- The new course has more hours of on-road instruction.
- A new closed track test and a new road test will come into effect on April 13, 2015.
- A new knowledge test will come into effect on June 1, 2015.

MAIN PHASES OF THE NEW COURSE

C-6060-A (15-02)
